CHECK OFF STATIONS <i>UAP must demonstrate competency</i>	LEARNING STATIONS <i>UAP will complete required training and questionnaire</i>
1. Patient Safety	10.
2.	11.
3. EPIC Documentation	12.
4.	13.
5. Vital signs	
6.	
7. Waived lab <ul style="list-style-type: none"> • Blood glucose 	
8. Joint Commission Readiness	
9.	

TIPS FOR YOUR SUCCESS

1. **Relax** – it will improve your performance
2. **Prepare** – it will allow you to be more relaxed

3. **Perform well** – approach the activities like they are a real patient encounter:
 - introduce yourself
 - check patient ID using 2 identifiers (name and date of birth)
 - explain what you are doing
 - state when you would wash hands
4. **If assigned in My Compass complete annual assigned training modules prior to marathon** For My compass assistance call HR 501-686-5650. If Waived lab modules are not assigned use magnifying glass to search for the course numbers provided and complete the module to help you study.
5. **Demonstrate competence** – If the required task at check off station is not successfully completed, UAP will need to remediate, then check off again.
6. **Review Station Guide** for what you will be doing at the marathon, study guides and prep material
7. **Access Mosby's videos listed in station guide by: (Use a computer at work)**
 - a. Copy link to browser:
<http://inside.uams.edu/centerfornursingexcellence/>
 - b. Scroll down to Mosby's skills
 - c. Search for subject provided in station guide
 - d. Click on Demos

****The Mosby's videos are for a visual guide only. Follow UAMS policy's**
8. **Access Compliance 360 to review polices in station guide by: (Use a computer at work)**
 - a. On work computer click on Clinical Desktop Icon or on Intranet click Clinical Desktop
 - b. On top menu of Clinical Desk Top Select Policies
 - c. Select under Polices and Guidelines the link to All Updated Policies available
 - d. Select ALL UAMS Policies and Procedures
 - e. Search for policy titles and numbers provided in station guide

Station Guide

Station 1	Identify Patient Safety Hazards
------------------	--

Required Prep:

Review Policies:

Patient Safety Events Policy Number: ML.1.06

Patient Identification Policy Number: PS.2.11

Fall Prevention Policy Number: NR.CP.1.208

Optional Prep:

View Mosby's Videos:

Fall Prevention

Station 3	Epic Documentation
------------------	---------------------------

Important Note: Epic is updating in September so at the marathon your screen will look a little different. Epic trainers will be on hand to assist with navigation but flow sheet function and location will be the same. You will be expected to document information correctly that you use everyday.

Required Prep:

Review Online Training:

1. Copy link into browser:
<http://inside.uams.edu/uconnect/training/tip-sheets/inp/>
3. Select Documenting Daily Weights

Station 5

Vital Signs

What You Will Do: Correctly obtain respiratory rate and achieve same results as station operator (± 2). Correctly obtain radial pulse and achieve same results as station operator (± 2). Correctly obtain a manual BP and achieve same results as station operator (± 4). **BRING A WATCH THAT COUNTS SECONDS!** UAP must be able to identify abnormal and normal vital signs. UAP must identify when and how nurse must be notified.

Required Prep:

Review Vital Signs/Telemetry Study Guide

Review Policies:

Blood Pressure: Upper Extremity Policy Number: NR.CP.1.500

Assessment: Respirations Policy Number: NR.CP.1.256

Radial Pulse Policy Number: NR.CP.1.352

Optional Prep:

View Mosby's Videos:

Assessment: Respiration

Blood Pressure: Upper Extremity

-For Blood Pressure Watch One-Step Method

Radial Pulse

-Assessing Radial Pulse

Station 7	Waived Lab: PXP Glucometer
------------------	-----------------------------------

What You Will Do: Perform Controls and/or skill for PXP Glucometer. The UAP must correctly answer questions about POC (Control) testing, results, documentation, and nurse notification.

Required Prep:

Complete Assigned Modules (these will tell you everything you are expected to know). If not assigned search for modules using the course number in My Compass and complete:

- Waived Lab Online Module-PXP Blood Glucose Monitor Course Number: 3195

For My compass assistance call HR 501-686-5650

Review Policies:

Bedside Blood Glucose Monitoring Using Precision PXP Policy Number: NR.WL.2.1

Station 8	Joint Commission Readiness
------------------	---------------------------------------

What You Will Do: Answer Questions about topics The Joint Commission will ask about.

Required Prep:

Review Joint Commission Study Guide
